

## **A Milestone Achievement: Publication of *A Textbook on Environmental Science and Sustainability***

The Department of Environmental Science at IUBAT—International University of Business Agriculture and Technology is delighted to announce the publication of *A Textbook on Environmental Science and Sustainability*, a comprehensive learning resource developed specifically for undergraduate students. Authored collaboratively by the dedicated faculty members of the Department of Environmental Science, this textbook reflects the department's commitment to academic excellence, innovative teaching, and the promotion of sustainability education. The book presents fundamental concepts of environmental science, ecosystem management, biodiversity conservation, climate change, pollution control, natural resource management, environmental policies, and the United Nations Sustainable Development Goals (SDGs) in a clear, engaging, and student-friendly manner. It has been designed to strengthen students' scientific understanding while encouraging critical thinking and responsible environmental stewardship. By integrating contemporary environmental issues with practical and local perspectives, the textbook serves as a valuable academic resource for students, educators, and researchers alike. The publication of this book represents a significant academic achievement for the department. It demonstrates the faculty members' dedication to producing high-quality educational materials that support both national and global sustainability agendas. IUBAT proudly congratulates all contributing authors on this remarkable accomplishment and looks forward to the positive impact this publication will have on environmental education and sustainable development.
